## The Makeup Pro Works on The Rookie . . .

Professional Makeup Artist and Hairstylist Penny Sadler, left, worked with former baseball great Jim Morris for an Encore Television shoot. Encore produced an interview segment with Morris to run prior to the airing of *The Rookie*, the hit film based on his life. Sadler said, "Working with Jim Morris was an inspiration. His story is a true testimony to the power of dreams. He's a

delightful man who overcame severe physical limitations to make his goal of pitching in the majors finally realized in 1999."
