[ASK THE EXPERT]

Q. “What are the benefits of airbrush make-up?”

A. “Airbrush make-up is sprayed onto the skin so it can be applied in a very thin layer.

Due to the unique application method, the natural skin color shows through, achieving great coverage and looking very natural. It sets almost instantly, is humidity - and water-resistant, and does not require powder to set.”

– Penny Sadler, TV make-up artist
